

FOR IMMEDIATE RELEASE

***Thick as Thieves* presents Audiojack (UK) Australian Tour 19-26 February 2010**

With the most exhilarating electro duo Audiojack coming to Australia, let the countdown begin.

Each with over ten years DJing experience between them, James Rial and Richard Burkinshaw who form Audiojack are one of the most hypnotizing acts in the industry.

They describe their style as “a cross between house and techno. It’s got a house feel, but a lot of the sounds and noises are very much from techno. It’s always music that’s going to have a lot of energy. It’s music to get people off their arses and onto the dance floor”.

Certainly making an entrance into the dance music scene in 2006, their first single ‘Robot’ has not only sold over ten thousand vinyl and digital copies but also received a nomination from DJ Mag for Best British Single. Their debut EP on Ralph Lawson’s 20:20 Vision Recordings features the tracks White Noise, Coastline and Quicksand, and achieved status as one of 20:20 Vision’s best selling EP’s of 2007.

Audiojack’s music has a vast, enviable list of international DJs who support their sound which includes Groove Armada, Sasha, Carl Cox, Deep Dish, Paul Woolford, Lee Burridge, James Zabiela, Nic Fanciulli, Timo Maas, Erol Alkan, Luciano, Steve Lawler, Craig Richards, Meat Katie, John Digweed, Laurent Garnier and Danny Tenaglia to say the least.

Alongside regular UK appearances, Audiojack have performed for over 200 crowds in more than 30 countries such as Australia, Belgium, Brazil, Canada, China, Denmark, France, Germany, Italy, Japan, Mexico, Netherlands, Portugal, Spain, Sweden and the U.S.

Clearly a crowd favourite, this is one tour that needs to be highlighted on your calendar.
