

## **KillRockStar presents Sean Tyas Australian Tour**

23 April - 1 May 2010

Sean Tyas is something of a leading light in European trance and a successful string of Australian tours and appearances has made the Tyas brand a firm crowd favourite in our sun burnt country. Returning to Australian shores for the first time since his breathtaking main stage demolition of the Trance Energy tour, KillRockStar Entertainment is pleased to announce the return of Sean Tyas and the exciting debut of his 'Tytanium' branded events.

Currently ranked 46 in DJ Magazine's Top 100 DJ Poll 2009, he was also earmarked by BBC Radio 1's Pete Tong as a "buzzword in trance circles" head of his debut Essential Mix for the station back in February 2009 and hooked by industry power house Beatport has a "One to watch in 2009", leaving little surprise that 2009 went down as undoubtedly his biggest period to date.

Having cut out his niche in the highly competitive production arena to create countless hit tracks, remixes and bootlegs, Sean brings to the dancefloor a mix of melodic harmony, driving groove and cutting edge production techniques.

The distinctive Sean Tyas sound has captured the imagination of the trance community with the highest echelons of the trance elite such as Armin van Buuren, Paul van Dyk, Judge Jules, Ferry Corsten, Sander van Doorn and Above & Beyond amongst the heavyweight playlist support. Sean also has legions of fans at grass roots level, from message boards, budding DJs and radio listeners, a fact proven by his meteoric rise up the ranks of popular polls such as the DJ Magazine Top 100 and TranceAddict.com, as well as being awarded 'Best New Face' winner at the recent Trance Awards as well as 3 Best Remixer and 5 Best Producer, with Mixmag also awarding him 8 in their 'Best New DJs' at the end of 2007.

Despite all this activity he has still found time to broadcast his own weekly radio show Tytanium sessions and for 2010 will be launching his own label imprint of the same name. 2010 will also see Sean work on his first artist album project, release a curve-ball techno track on Full Tilt records and undertake in remix work for artists such as Dash Berlin, on top of heavy tour throughout Asia, Australia and the Americas, all of which suggests that the world of Tyas looks exceedingly bright for 2010.
